A It says NEC 2011.  Q And it says that twice; is that right?  A Yes.  Q Do you know why there's two identifications of NEC 2011?  A Yes, because the original HTML page is in color and one is green.	10 11 12 13 14 15 16 17 18 19 20 22 22 22 24 25	whole document, then make sure that you understand the whole document and answer the question. A Yes.  Q And the cover page has a representation these standards have been incorporated by reference; is that right?  A Yes, sir.  Q Now, when we see examples of standards where there's only one link, like if you'll turn to the second page of this document, you'll look, for example, in Connecticut and you'll see in the electrical column there's the NEC 2005. Q Okay. And what about the ones that are in green? I'm sorry. The green were the HTML. The ones that would be in red, what would those be? A That's a PDF version of the file. Q And is the PDF version just a scan of the standard as you received it as you originally purchased it? A It's a scan with OCR and a cover sheet. THE REPORTER: With those what? With THE WITNESS: With OCR THE REPORTER: Oh. THE WITNESS: and a cover sheet. THE REPORTER: Okay.		I I know that we only have a PDF version of the NEC 2005. Q So so you know by virtue of your own knowledge that that would link to the PDF version? A Yes. Q And do you know why you don't have an HTML version of the 2005 NEC? A Because we didn't give it to HTC to be double-keyed. Q So only for some of the standards you obtained from NFPA did you do the double-keying process in the conversion to HTML? A That's correct. Q And for standards where there is only a PDF version that's linkable from this page, the PDF version is the only version that you're providing on your website? A I think so. MR.
